

Give me a diverse media!

My name is Neil. I work for a local TV news station in Cleveland, which is an affiliate of a major television and media network. I am already uncomfortable about that, and generally dislike and disdain the kind of media that I and the rest of the American population are provided. I sincerely wish that the FCC will reconsider its intent to allow further consolidation and centralization of power in an already distorted and one-sided American media. This is a BAD idea, and only hurts the average American. PLEASE reconsider.

Thank you.
